I would think this is no different than partners asking for donations, or having donation boxes in our VCs; but we have a specific agreement with them that spells that out...do we have such an agreement with ERWP? (b)(5) DPP

Is there a pill I can take for that?

Larry,

This is draft letter coming from ERWP asking for funding. GSENM/BLM is not identified in it but we are partner of the larger group. Please review and let me know if it needs to be modified or if there are other concerns needing a higher review.

Thanks.
